GigShield AI

micrParametrico-insurance, powered by machine learning.

Built for India's 15 crore gig workers.

The Problem

Gig workers earn daily. Risk hits instantly. Protection = ZERO.

🌧️ Rain = no work

🔥 Heat = no rides

🚫 Platform down = no income

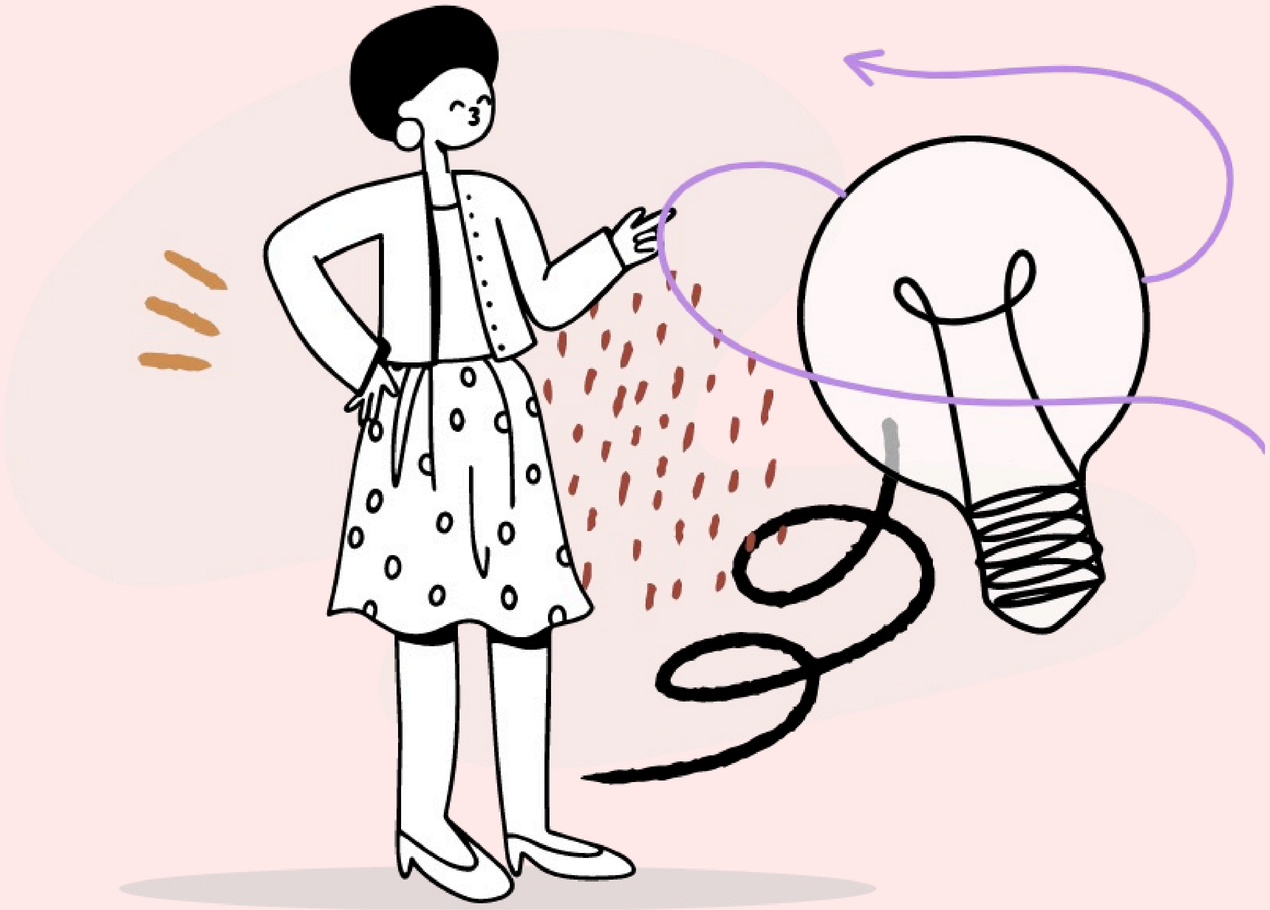
👉 15 crore workers affected

👉 No real-time insurance

👉 Claims take weeks (if they exist)

Result:

💥 Income shock → Debt spiral



The Insight

Gig workers don’t need traditional insurance.

They need:

⚡ Instant protection

⚡ No paperwork

⚡ Hyper-local risk coverage

👉 Insurance should behave like UPI, not LIC.

GigShield AI
Insurance That Pays Before The Storm Ends.

The Solution:

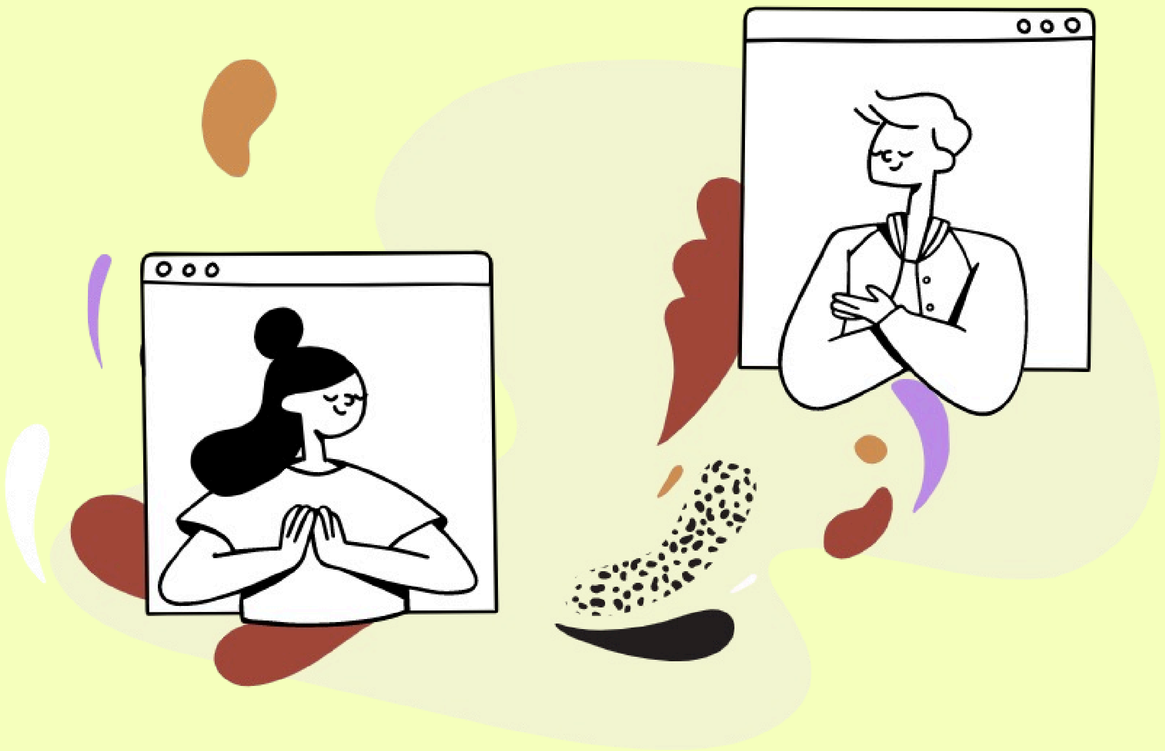
One API → Full risk profile in seconds

✔ AI risk scoring

✔ Dynamic premiums

✔ Auto payouts

✔ Fraud-proof system



How It Works

From Input → Payout In Seconds

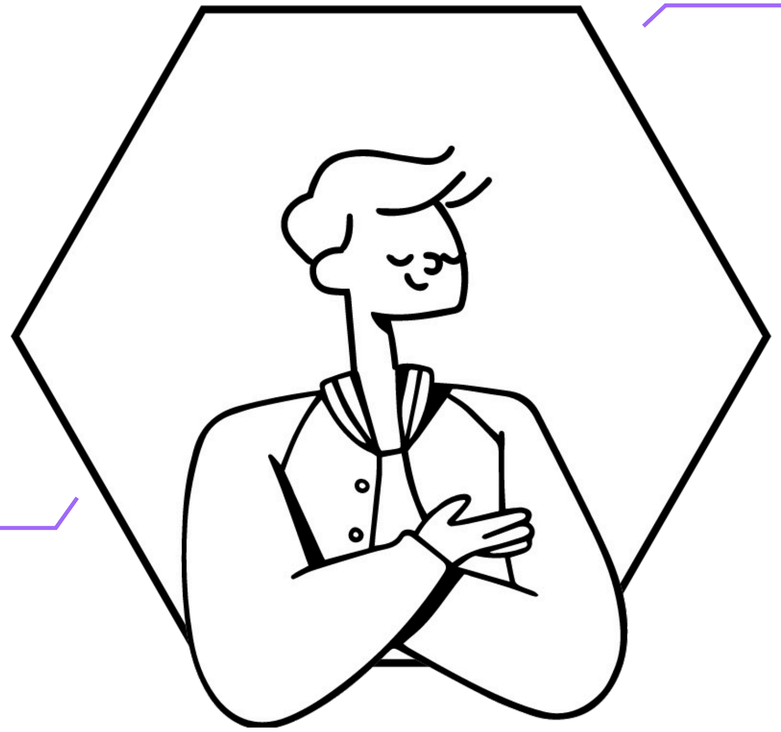
1. Worker enters data
2. AI predicts risk
3. Premium is calculated
4. Fraud check runs
5. Policy activates
6. Event happens → 💸 payout instantly

AI Magic (Core Engine)

Your Premium Is NOT Fixed.

Risk Probability

Season (Monsoon Boost)



Location (Hyper-Local)

Actuarial Logic

Live Example Ravi — Swiggy Rider, Chennai 🌧️

Income: ₹4,800/week

Rainfall: High

Risk: Medium

👉 Premium: ₹41/week

👉 If flood hits → instant payout

No forms. No delay. No stress.

Fraud Shield 🔐
4 Layers. Zero Nonsense.

Input Validation

AI Anomaly Detection

Cross-Check Signals &Final Audit Scoring

Fraud? Blocked.

Genuine? Instant approval.

Why This Is Different? We Don’t Process Claims. We Eliminate Them

Traditional → File claim → Wait weeks

GigShield → Trigger → Get paid instantly

Parametric insurance = future
